## ICSA Benefits Breakdown

### Safety Consulting and Information

ICSA offers its members access to up-to-date safety information through various channels. First, members have access to knowledgeable safety consultants to assist them in operating safely and profitably. ICSA is also active in social media webinars, conducts webinars, provides ICSA Asks YouTube videos, and often sends members text and email messaging. The ICSA Team is continuing to add new avenues to get information to its members.

### Hair Testing and Consortium

**THE ALCOHOL & DRUG  
TESTING SERVICE**

TADTS provides ICSA members the required hair drug testing. Hair testing is the most accurate form of drug testing and there are no known adulterants to tamper with the results. TADTS also has an FMCSA random drug testing management consortium that members can join at a discounted rate.

### Online Resources

**MODEL SAFETY PLAN**

Members of ICSA receive access to two online resources, ICSA's Model Safety Plan and First Gear. The Model Safety Plan consists of eight parts, covering everything from effective driver hiring, to ongoing training and communication, to the crash review process. First Gear is an online training curriculum developed for drivers, no matter how long they have been on the road. The information coaches drivers on many safety topics and can be viewed on any device.

### In-Cab Cameras

**SMARTDRIVE**

samsara

ICSA members can purchase cameras from 2 different vendors, Motive and Netradyne, at an exclusive discount. Members who already have cameras from those vendors, Smart Drive, or Samsara can continue to use them. Event recorders are essential to safety. They can reduce accidents, and make claims easier to defend when an incident does occur. Cameras also allow our safety consultants and your team to review driver's behavior.
